PETER RUTGERS  
DENNIS SCHIPPER

**2023**

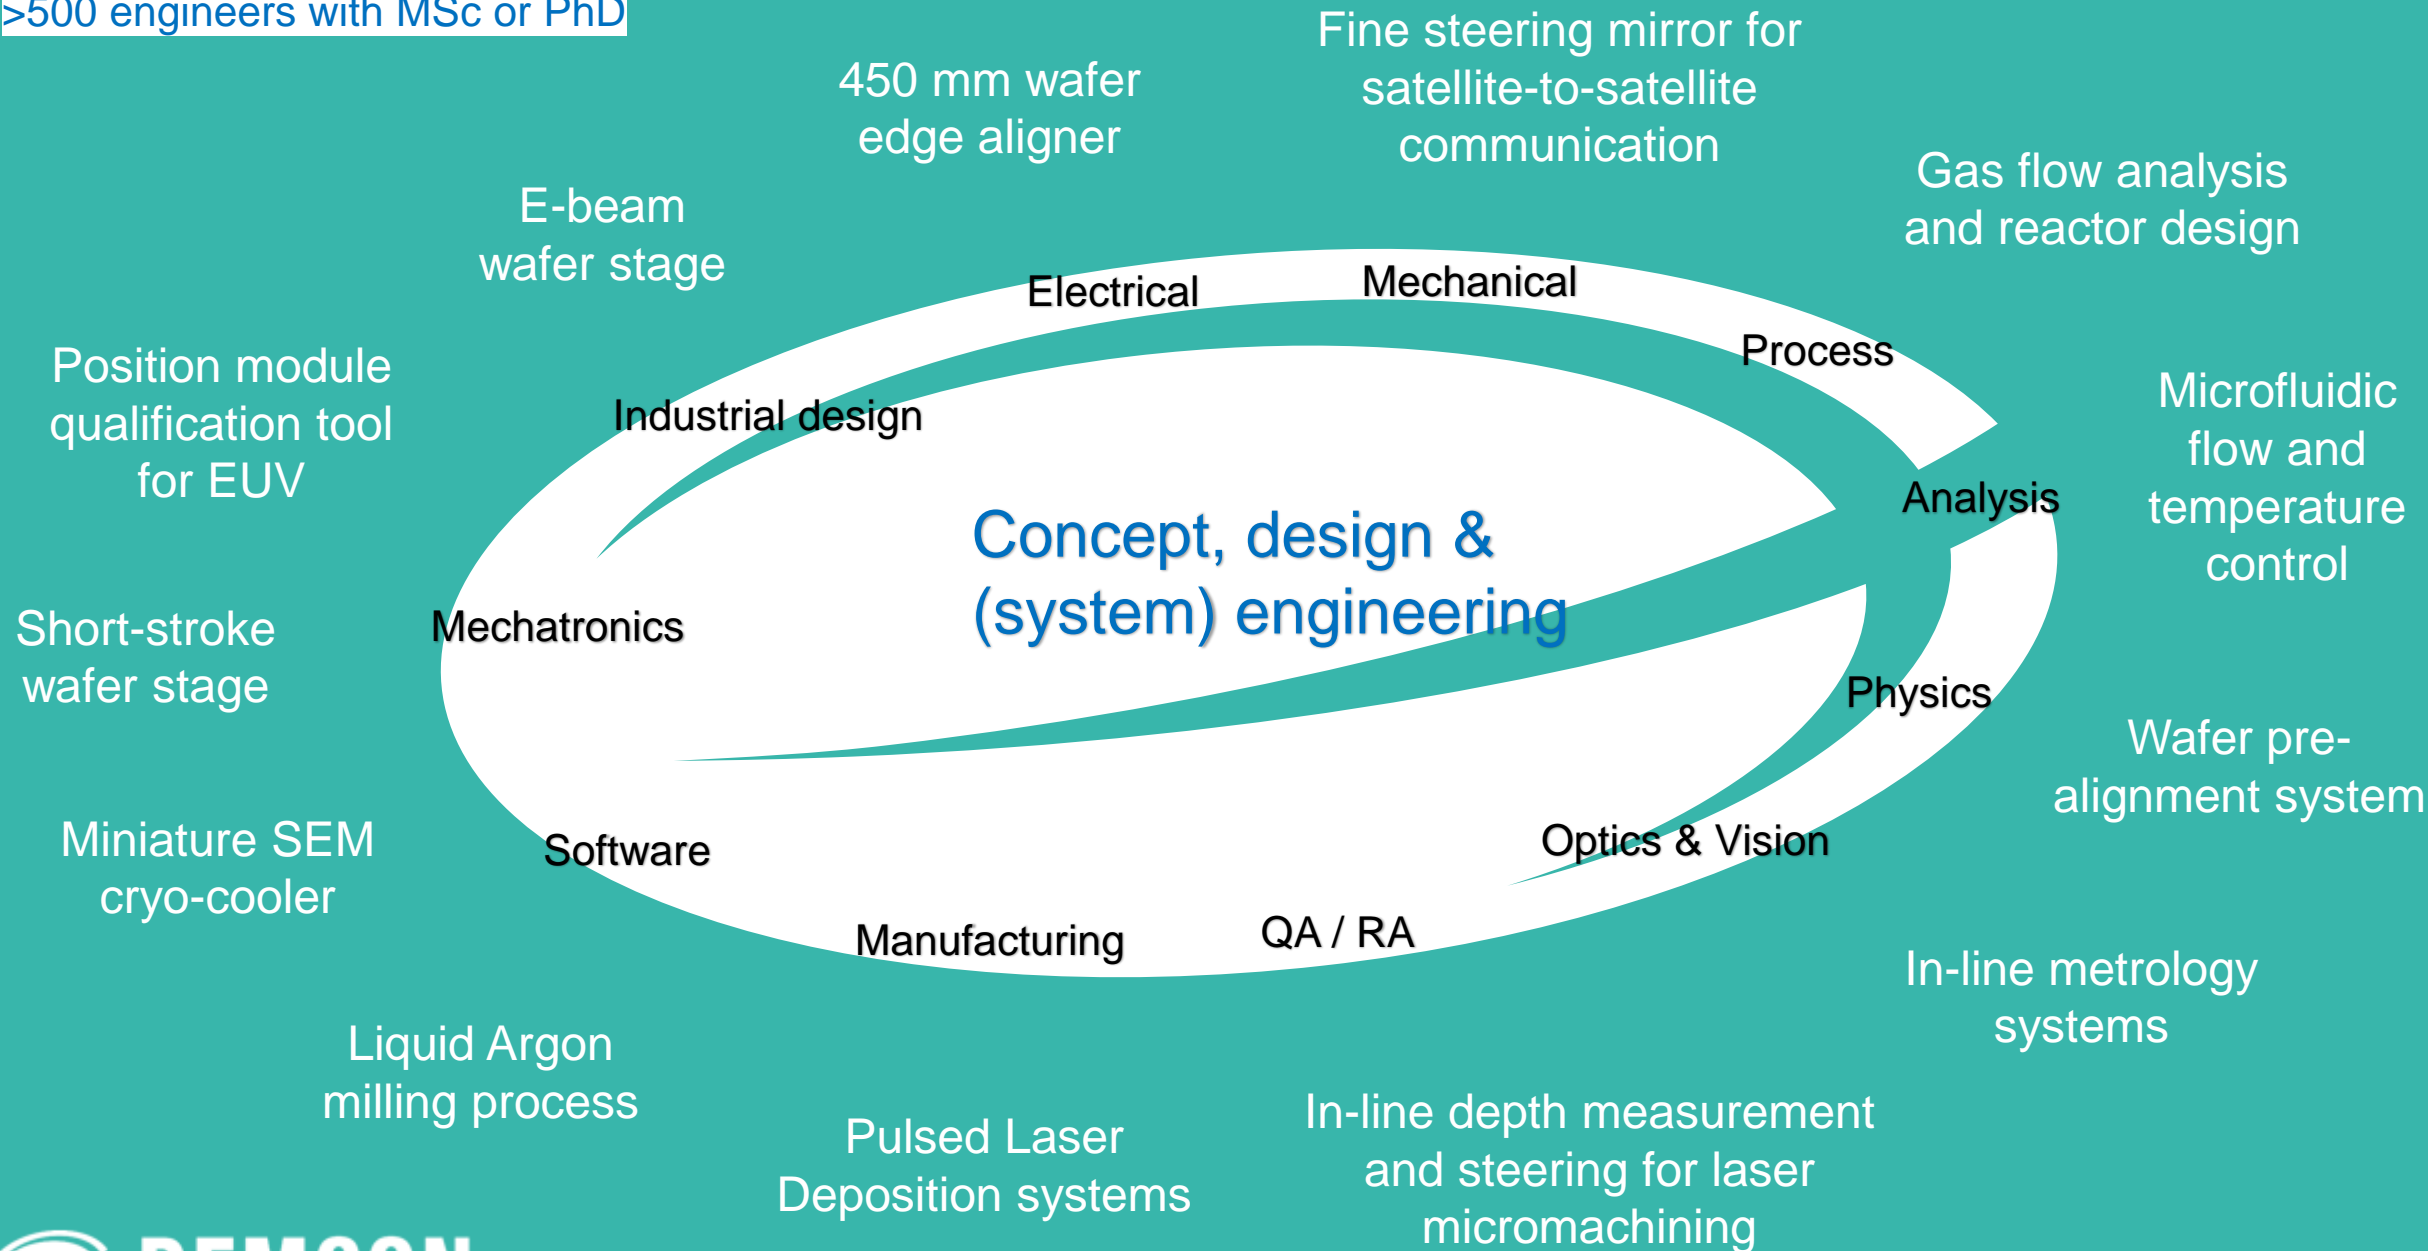

1000+ EMPLOYEES  
500+ ENGINEERS  
7 LOCATIONS

# Demcon as innovation partner

- **Independent organization providing R&D, design and engineering outsourcing** from definition to production
- Specialized in tailor-made (opto-)mechatronics for “deeptech” markets such as Semicon, Space, Energy, Health and Life Sciences
- Customers receive the IP; project-based partnership, closely managed with the customer
- You leverage external expertise, shorten time-to-market, and innovate more successfully
- Demcon has the missing competencies and specialized know-how to enable your innovation

>500 engineers with MSc or PhD

and 100s more projects

# Demcon in Japan

- Demcon is about finding creative solutions for difficult engineering challenges; we share a rich engineering culture with Japanese high-tech companies
- Learn and understand how our business model and way of working, *i.e.*, outsourced engineering, can fit Japanese companies' innovation strategies
- Long-term partnerships to support you in your engineering challenges
- Solve technical challenges, together, and enjoy working with people from other culture
